TIMBER HARVESTING APPLICATION

(Applies to all timber harvesting within the Township where the value of the trees, logs, or other timber products removed exceeds \$750.)

Application / Permit No.: _____ Date: _____ Fee: \$250.00

Location: _____ Harvest Area Size: _____

Owner Name: _____ Operator Name: _____

Address: _____ Address: _____

Tel.: _____ Tel. / Cell: _____

Operation:
Start Date: _____ End Date: _____

Conservation District:
Erosion & Sedimentation Plan submitted (yes) (no) Date: _____

Operator: _____ Date: _____

Fee of \$ 250.00 _____ (Paid) (Due)

(Approved) (Denied) _____
Zoning Officer

This Application requires a Logging plan...see attached for details.

LOGGING PLAN

A. Minimum requirements. The logging plan shall include the following:

(1) Design, construction, maintenance, and retirement of the access system, including haul roads, skid roads, skid trails and landings;

(2) Design, construction, and maintenance of water control measures and structures such as culverts, broad-based dips, filter strips, and water bars;

(3) Design, construction, and maintenance of stream and wetland crossings; and

(4) The general location of the proposed operation in relation to municipal and state highways, including any accesses to those highways.

B. Map. Each logging plan shall include a site map containing the following information:

(1) Site location and boundaries, including both the boundaries of the property on which the timber harvest will take place and the boundaries of the proposed harvest area within that property;

(2) Significant topographic features related to potential environmental impacts, including wetlands;

(3) Location of all earth disturbance activities such as roads, landings, and water control measures and structures;

(4) Location of all crossings of waters; and

(5) The general location of the proposed operation in relation to municipal and state highways, including any accesses to those highways.

C. Compliance with law.

(1) The logging plan shall address and comply with the requirements of all applicable municipal, state and federal statutes and regulations, including, but not limited to, the following:

(a) Erosion and sedimentation control regulations contained in 25 Pa. Code, Chapter 102, promulgated pursuant to the Clean Streams Law (35 P.S. §691.1 et seq.);

(b) Stream crossing and wetlands protection regulations contained in 25 Pa. Code, Chapter 105, promulgated pursuant to the Dam Safety and Encroachments Act (32 P.S. §693.1 et seq.); and

(c) Stormwater management plans and regulations issued pursuant to the Stormwater Management Act (32 P.S. §680.1 et seq.).

(2) The logging plan shall contain a notarized statement by the landowner and operator that all legal compliance requirements have been met.

D. Relationship of laws, regulations, and permits to the logging plan. Any permits required by any statute or regulation shall be attached to and become part of the logging plan. An erosion and sedimentation pollution control plan that satisfies the requirements of 25 Pa. Code, Chapter 102, shall also satisfy the minimum requirements for the logging plan and associated map specified in Subsections **A** and **B** of this section, provided that all information required by these subsections is included or attached.
